Christadoro's Hair Dye still Triumphant!

CONTRAST the tints brought out in the hair by Christadoro's matchless revivifying Hair Dye and those produced by applications of the burning fluids dyes nearly sold as Hair Dyes. You see at once that the color is natural in one case unnatural in the other and the simple reason is that Christadoro's is the ONLY preparation which by its exact chemical combination operates on natural and immutable principles. Made sold and applied (in 10 private rooms) at Christadoro's 6 Astor House Broadway N Y. Also for sale by the principal Druggists and Perfumers throughout the country.

The most Popular Collection of Church Music

EVER PUBLISHED IN THE WORLD

THE NEW CARMINA SACRA.

BY LOWELL MASON.

MORE than four hundred thousand copies of the Carmina Sacra have already been sold. It has been used more extensively more generally for a longer time and with more satisfaction than any other collection of Church Music. It has done more for Congregational Singing in America, than any one agency. The majority of those tunes which are constantly used and loved all over the land, are from this book.

Our edition of the New Carmina Sacra has been carefully revised, the less valuable matter having been omitted and its place being filled by the most popular tunes from the author's other works. Entirely new and attractive Elements of Music, Exercises &c are also introduced. In short, the New Carmina Sacra is now in a most complete and permanent form. Though other books may have a sale and all other books they are not fully [illegible] for [illegible] without a supply of this book. As a text book for Singing Schools the hundreds of thousands who have used it appreciate its great value. For sale by booksellers generally.

News of the Morning.

The story that the *Pacific* had put back, in stress of weather, into the Shannon, is now discredited. Capt. Lott, of the *Canada*, heard nothing of the kind, as he pretty surely would have done, were it true. It is now thirty-three days since the *Pacific* sailed from Liverpool. The *Atlantic*, over-due at New York, will, it is hoped, bring tidings of the missing steamer.

The proceedings of the Republican Convention at Pittsburgh, will be found under the Telegraph head. They were spirited and harmonious and augur well for the success of the good cause. The K. N. Convention at Philadelphia seems to have gone to total wreck upon the question of Slavery.

Gov. Shannon has been confirmed as Governor of Kansas, after a sharp debate and by a party vote. We have conflicting reports of the condition of affairs in that Territory.

The letter of our New York correspondent in to-day's *Sentinel*, is worthy of special attention. We have also other interesting correspondence, telegraph news, local items, &c.

The latest accounts from England warrant the hope of a peaceful solution of the Central American difficulties.

A spirited Railroad meeting was held in our city, Saturday, of which a full account is given elsewhere.

Republican Nominating Convention.

It will be seen from the proceedings of the Republican Conference at Pittsburgh that a Republican National Convention, to nominate Candidates for President and Vice President, is to be held at Philadelphia on the 7th of June next. We like both the time and the place, and anticipate glorious results from the proposed gathering.

Milwaukee and Beloit Rail Road.

MEETING AT DEMOCRATIC HALL.

On Saturday evening a large and spirited meeting was held at Democratic Hall, to consider what steps was proper to be taken by the city in aid of the Milwaukee and Beloit Rail Road. There was a numerous representation of the substantial men of Milwaukee, and delegates present from Muskego, Mukwanago, Waterford, Troy, East Troy and Delavan. The meeting was organized by the appointment of Byron Kilbourn, as Chairman, and A. O. Babcock, of East Troy, as Secretary. At the suggestion of Mr. J. D. Merrill, a Committee was appointed to wait upon the Common Council, then in session, and request their attendance at the meeting, after their adjournment. The chairman having briefly stated the objects for which the meeting was convened, Mr. Kelsey, of Delavan, one of the Committee appointed by the Commissioners of the Milwaukee and Beloit R. R., to canvass for subscriptions to the stock, &c., addressed the meeting, at length and with much clearness and ability, in favor of the project. He illustrated his remarks by a map of the country adjacent to the proposed road, and showed that the route made almost an air line from Milwaukee to Savannah, on the Mississippi River, a total distance of only 132 miles, touching the important points of Freeport and Rockton, in Illinois, and Beloit, Delavan, Elkhorn, Troy, East Troy, Mukwanago and Muskego, in Wisconsin.

At *each* of these points, by the route proposed, passengers and freight would be *nearer Milwaukee than to any other port* on Lake Michigan, and when to this was added the conceded fact that Milwaukee was the best Wheat market and shipping port on the Lake, he held it to be conclusively demonstrated that this road would secure to Milwaukee vast advantages over all her rivals. He stated as of his own knowledge, that there was a very earnest desire among the people in the Northern and Northwestern portions of Illinois for direct railway communication with Milwaukee, and that they were ready to do their part towards effecting it. The construction of 42 miles of road to Elkhorn, or 48 to Delavan, would accomplish the object. The towns intervening between Milwaukee and Delavan were all alive to the subject and would give freely, in cash subscriptions, farm mortgages and town bonds, to help it along. Mr. Kelsey estimated the available funds from these different sources at $700,000. If, then, Milwaukee would put her shoulder to the wheel and build the first 15 or 20 miles of the road, the success of the project was ensured, and the connection with the Fox River Valley road, that might be secured at the same time by making a common track for the two, say as far as Muskego Centre, where the Fox River Valley branch would diverge south to Waterford, while the main trunk was continued on to Mukwanago, East Troy, &c.

Mr. Reymert followed Mr. Kelsey, confirming all his statements, and adding that the country was all ready to take hold and put the road through, the moment the city manifested its readiness to act in the work.

Mr. Chapman, of Waterford, said that the proposed route, west of Muskego Lake, would accommodate the Fox River Valley business, and was, indeed, the best route for a road; while the additional distance, compared with the route East of Muskego Lake, could not exceed one mile.

Mr. A. O. Babcock, of East Troy, testified to the universal feeling in that town, in favor of the enterprise; in proof of which he would state that they stood ready to subscribe, in cash bonds and mortgages, from $125,000 to $150,000.

Judge Fitch, of Mukwanago, made a like good report from that town, and similar assurances were given by the delegates present from Troy and other towns.

Dr. L. W. Weeks expressed his gratification at all he had heard, and while admitting that the project was comparatively new to him, had no hesitation in saying that it was a most important enterprise to Milwaukee, fraught with golden promise and deserving not only of our good wishes, but of our substantial aid.

Mr. H. Crocker gave an interesting account of the topographical features of the country, through which it was proposed to build the road and expressed it as his decided opinion that, so far as a connection with the Fox River Valley was concerned, it could be attained as well by taking the West side of Muskego Lake, as the East side; in other words, making a common track for the two roads, some 15 or 18 miles out. He desired to enlist in the enterprise our Merchants and Property holders, who had not only the means, but the leisure, to take hold of the project and put it through.

Senators Hadley and O'Neill, being called on, expressed their hearty concurrence in the proposed work, testified to its importance, and promised their personal and official aid and co-operation.

After further remarks by several gentlemen, Gen. King submitted the following resolutions, with a view to elicit an expression of opinion from the meeting:

Resolved—That in the judgment of this meeting the Milwaukee branch of the Fox River Valley Rail Road, and the Milwaukee and Beloit Rail Road should be built on a common track, as far as Muskego Centre.

Resolved—That Milwaukee stands ready to build twenty miles of the Milwaukee and Beloit Rail Road, so soon as it shall be made to appear that the country towns are able and willing to continue the road to Elkhorn, or Delavan.

Resolved—That a Committee of Five be appointed by the Chair, to confer with the Commissioners of the Milwaukee and Beloit Rail Road, and with the representatives of the several towns on the route; ascertain their plans, and the extent and character of their means; and report in full at a future meeting of the citizens of Milwaukee.

These resolutions having been read and seconded, were adopted by a *unanimous* vote.

The Chair appointed the following Committee under the third resolution: Dr. L. W. Weeks, Mr. W. B. Hibbard, Alderman J. Rosebeck, Jas. D. Merrill, Esq., and Dr. Jas. Johnson.

On motion of Gen. King, the meeting then adjourned till Saturday evening next, at the same time and place, when it is expected that the Committee will submit their report and the necessary steps be taken to start this most promising Rail Road enterprize.

FROM MADISON.

Editorial Correspondence of the Sentinel.

MADISON, Feb. 22, 1856.

On the desks in Senate this morning is a printed bill incorporating Messrs. Day, Doty, P. H. Smith, Winslow, Bowen, E. Smith, Sat Clark and Fitzgerald into a company to build a Railroad—where, do you suppose? Why, from Oshkosh—"there or thereabouts,"—to Sturgeon Bay on Lake Michigan. There will be a town there some of these days. The company is to be organized when $50,000 is subscribed, and $1,500 paid in. Go it! Young America!

The Assembly has repealed the law of last session granting pre-emptions on swamp lands. The bill awaits action in the Senate. There are a good many asking for it, and somehow, the present state administration, which is not famous for its very faithful guardianship of the lands of the State, seems anxious for it. I don't know whether any good can come out of it.

The city bill, dividing the First and Second Wards, was amended in Senate by naming the North part of the old 1st Ward the 1st, and the South part the 7th, so that the bill being already signed, as I am informed, our friends and fellow citizens may consider themselves removed and settled accordingly. Ain't that North-west Ward a regular "bloody sixth," though, in regard to its politics!

We did not have the anticipated address from Justice Smith this morning, invited by resolution of the Assembly; the reason, as I understand, being that the clerk failed to deliver the judge a copy of the invitation, whether through forgetfulness, or through a considerate regard to the memory of Washington, which might have been desecrated by a eulogy from a state-rights judge of a Northern state—this deponent does not know, and therefore does not state.

The Assembly did not sit yesterday, but adjourned over to to-morrow.

The Senate went through with the morning orders, and then adjourned over to Monday at 3 P. M.

There are some very curious developments in regard to the investigating committee, and cognate matters. Their report the other day, in favor of a suspension of sales of lands, and an early adjournment and extra session, was *unanimous*. Some of the Barstow-and-the-Balance men somehow didn't like the looks of it, and forthwith, effort (successful ones) were made to stave off action on the Report.

Then came a hastily called caucus of the Democracy, and there, or thereabouts at least, two of the democratic members of the committee, Messrs. Chappell and H. H. Gray, are said to have ascertained that they were "sold" by the wicked "Shanghais," and didn't mean to make any such report at all! Mr. Greulich, however, as a member of the committee, was too honest to stand this, and in the caucus told his fellow members plainly that they were *not* "sold by the Shanghais," but had agreed to that Report in good faith.

It may be that there is Barstowism enough in the Assembly to prevent an Investigation after having its committee appointed—to prolong the session to an enormous length, without any reason, and to cut up any other unseemly caper which may seem good; and that they are mad enough to do it. Let them, if they dare! Things have come to a pass in this State, when its officers and legislators are watched as were never officers and legislators watched before—and the "murder *will* out," some of these days.

If the Legislature is to adjourn the day should be set at once. No one who has local bills pending need be alarmed. I have seen Mr. Hull "put through" well nigh 100 bills in one day, and he can and will do it again if necessary.

As to general laws, the apportionment committee will report before long, and, besides that subject, and the capital punishment bill, there is not much of great interest pending, or which could not lie over.

W. H. W.

COMMON COUNCIL.—The Common Council held an adjourned meeting on Saturday night, at which the following business was transacted:

Petition asking for the organization of a new fire company was referred to the Chief Engineer of Fire Department. Petition of Right Rev. Bishop Henni, asking the revision of the city Taxes upon the hospital of the Sisters of Charity, stating that the lots, buildings, &c., were used and occupied solely for charitable purposes and that citizens of all classes were admitted and were partakers of charity; referred to the committee on taxes.

[We trust that the taxes will be remitted upon the *only* hospital we have in the city; the halls of mercy and of charity should never be trod by the tax-gatherer except as recipient of his kindness.—REPORTER.]

A Committee from the Railroad meeting at Democratic Hall asked the attendance of the Council thereat. A number of accounts were allowed and others referred. A communication was received from J. B. Smith, President of the Horicon Railroad Company, stating that the bond given to the city had been complied with and the road completed to Horicon within the time specified.

The new law, amending the Charter, dividing the wards, &c., was ordered printed. Adjourned.

For the Sentinel.

A Correction.

Messrs. Editors:—Permit me to correct a statement made in your Saturday's issue, in regard to a resolution passed unanimously in favor of restoring Capital Punishment, by the late Grand Jury of this County. Although a member of that body, I was not present when said resolution did pass; otherwise my vote would stand against it, considering the restoration of the Death Penalty a movement not worthy of the enlightenment of our present age. I am also informed that several members who were present at that time did cast their vote on the negative side.

Very Respectfully,
H. HAERTEL.

Milwaukee, Feb. 25th, 1856.

THE "BORDER RUFFIAN" PROCLAMATION.—The Buffalo *Republic* publishes the President's Kansas Proclamation, in which our neighbor of the *News* discovered the true "Jackson ring," with the following pithy and appropriate comment:

> Such a proclamation was *not* issued on the eleventh of March last, and therefore Atchison and Co., from Missouri, usurped the election of a legislature for Kansas, on the 30th of that month, to enact slavery for law.
>
> But now, when the people of Kansas are endeavoring to redeem the territory to freedom, the President seeks to intervene. Comment is superfluous.

HIGH PRICE FOR NEWSPAPER STOCK.—The New York *Mirror* of Saturday last says that $3500 were offered the day previous for *one* share of the New York *Tribune*. This would make the one hundred shares, into which that establishment was divided a few years ago, worth $350,000.—The par value of each share is $1000. This is certainly a very brilliant success for a newspaper enterprise.

From Our New York Correspondent.

NEW YORK, Monday, Feb. 18.

The *Canada* at Halifax seems to make it certain that Russia has accepted unconditionally the basis for Peace set forth by Austria, and the whole matter is to be concluded—so it is positively averred—this month of February. We may no longer, therefore, be incredulous that negotiations, to be summarily and rapidly prosecuted, looking to peace, are determined on; and to that degree of certainty we have arrived. But what then? The very decision that those negotiations shall be short and summary betrays the distrust, that Russia at least may not be in earnest. I yet cannot perceive how Russia can yield to the terms proposed, unless, indeed, there be some unrevealed scheme for the future between the two Empires of France and Russia, whereby what shall now appear concessions on the part of Russia shall be made up, tho' the assistance of France hereafter, at the expense of England. It seems undeniable that Napoleon Third is in favor of Peace at once; and as his interest is much less than that of England, in muzzling the Russian bear, one may understand that having monopolized almost all the glory of the Crimean campaign, and by the manifest military superiority of France humbled England even more effectually than Russia, and thus soothed the bitter resentments and memories of Frenchmen against the conquerors at Waterloo, the French Emperor may now really mean Peace.

A few weeks must determine the issue.—Meantime, in the very prospect of a cessation of hostilities, the prices of breadstuffs and provisions had fallen. But it seems to me quite certain that high prices comparatively and abundantly remunerating to the farmer, must prevail all this year until the new harvest, even though peace be made; for Europe and America are both bare of any surplus, and the large non-producing class, connected with the various demands of war, must be fed long after actual war shall have ceased. Although, therefore, high speculative rates for grain and provisions must not be looked for, good prices may be relied on, in my judgment.

We are anxious here about the *Pacific*, mainly from the fear of ice, for except destruction by ice or fire (the latter very little probable.) I cannot feel that she is in danger, however disabled as to machinery. The unusual appearance of ice at this season and the fact that the new Cunarder, the *Persia*, was so long in it and for a time disabled as to paddles by it, turn all thoughts to that source of danger to the *Pacific*. Two or three steamers have gone out to look for the delaying wanderer, but I fear this was a movement rather to soothe anxieties at home, than in much hope, on the trackless ocean, of falling in with the *Pacific*.

The great news of the day is the return of Gov. Shannon under the President's order, to Kansas, with authority to call out the United States troops to repress disorder and civil war. It is impossible to judge, until the instructions under which Gov. Shannon is to act, are seen, what the President and his advisers will deem such disorder, or opposition to, or violation of law, as to authorize the interference of the United States. Certainly we have the President's admission that he has not considered heretofore, that the armed intervention of the Missouri ruffians in the affairs of Kansas, presented any case for his interference. It remains to be seen whether he will consider the preparations for self-defence, made by the inhabitants of Lawrence and other towns of the Free State settlers, such a case, and turn against the invaded and injured party the arms of the Federal Government. Possibly Gov. Shannon, who has recently been denounced in unmeasured terms by the border ruffians, because of the pacification he effected at Lawrence, may now be prepared to hold the scales of justice even and to take part with the right. But I distrust all such men as he, and look, I confess, with intense solicitude, for the effect and consequence of this return, with armed legions, of Gov. Shannon to his post. If only the house of Representatives could be made to do its duty in the premises! If only the decided majority, elected on the basis of opposition to the Kansas-Nebraska fraud, could be held faithful to the trust confided, instead of being dissipated and distracted in paltry squabbles about places of profit and patronage! Fearful indeed will be the responsibility, now and in all time, of each and every one of those professing friends of freedom in Kansas, who in this, its hour of extremest necessity, is found wanting to his pledge and false to the hopes of those who elected him!

After some little show of thaw last week, we have had, since Saturday evening, weather as cold as January, and with all the power that the sun now has in the heavens, it makes very little impression upon the some three or four feet of ice, covered with rubbish as with a roof, that render our streets almost useless for vehicles. Yet the Spring *will* come.

Correspondence of the Sentinel.

Green Bay—Increasing Business—"Whitney's Folly"—Fort Howard—The Garrison—Maj. Shaler—Howard—Depere—Iron Mine—Stone Quarry, &c.

CONCLUDED.

ASTOR HOUSE, Green Bay, Feb. 16, 1856.

"*Whitney's Folly*" is somewhat celebrated in this section of the country. It consists of a large two story frame house, situated on the bank of East, [or Devil] river, just in the outskirts of the town, overlooking the Bay and the surrounding country. Mr. DANIEL WHITNEY was one of the earliest settlers, (after the French and Indians,) of the town, and now resides in the first house built by the whites, which is a block house, clapboarded over a few years since. He was an extensive land-holder, and at one time was the owner of a great portion of the town as well as Sheboygan. He thought he would build a house that should be an ornament to the town, and expended some $12,000 upon it, introducing large quantities of the finest marble in finishing off the inside work. It is estimated that it would cost about $12,000 more to complete the house, according to the design of its originator. But it has never been completed, and is fast going to ruins. Its polished marble mantle-pieces, and fine architectural ornaments are ruthlessly destroyed, while Mr. W. contents himself in living in the plain old house in the heart of the town, laid up with so much apparent good taste years before the project of his noble mansion now known as "Whitney's Folly" entered his head.

A Company of very wealthy gentlemen from Kentucky have recently invested a large amount of money in pine lands up the East River, and are now erecting a large Steam Saw Mill about ½ mile from the city. They employ in the woods about 100 men and 40 teams. They have an engine of 60 horse power, and intend to put in all the machinery it can drive. Their partners in this city, Messrs. Haynes & Smith, are the practical managing men, and from what I witnessed of their works in completing their mill, should judge that they are well fitted for carrying forward so important a business.

I spent an hour very agreeably with Maj. SHALER, whose residence is just outside of the pickets at Ft. Howard. Maj. Shaler has "seen service," as two shot wounds he received at the murderous battle of Lundy's Lane, abundantly testify. He rehearsed several exploits in which he was engaged, with much animation, the fire kindling in his eye as he spoke, and for a time he seemed to "fight his battles o'er again." He joined the army some 48 years ago, and still he looks hale and sprightly.

The garrison is fast going to decay, yet some three or four muzzles of cannon are ranged for sweeping any British fleet that may venture up the Bay with evil intentions. A large amount of valuable land belonging to the Government will be soon thrown into market. The lands are beautifully situated, and are of a very rich quality.

Howard is a new town which is just springing up across the river from the city, and is making fine progress. The Howard steam mill, (burned last season) now owned by Robinson and Ballou, and managed by C. D. Robinson, editor of the *Advocate*, is now nearly completed. The main building is 60 by 120 feet, to contain two upright, or muley saws, averaging 230 strokes per minute; one double siding machine, manufactured by Pinney Youngs & Co., of your city, cutting with ease, 1,500 per hour, and costing $1,000; several lath mills and a number of small saws, all to be driven by an engine of 60 horse power.—These gentlemen have constructed a railway into the woods, about 2½ miles in length, for the purpose of facilitating the transportation of logs to the river, the logs being cut in the winter and drawn to the head of their railway and in the summer taken down to their dock whence they are taken to the mill with one horse, over another railway, one-half a mile in length, at the rate of 35,000 per day. One horse is constantly employed in taking provisions to the lumbermen engaged in the pineries, some 60 or 80 being constantly employed by this enterprising business firm—a chest of tea and a barrel of flour only serving to supply the gang of workmen for a week or ten days. So that, besides, in connection with his brother, making one of the very best papers published in the State, Mr. Robinson is also largely engaged in the lumber interests, and with a right good will does he accomplish whatever his hand finds to do, in either branch of business.

Howard Foundry was established and bought by Mr. Otto Tank in 1852, and since 1854 has been leased and managed by Mr. C. VERBECK. It has a favorable location on the west bank of the Fox for landing material and for doing steamboat work. This Foundry built last season new direct-acting engines for the steamer *Fanny Fisk*, and one new stern-wheel boat. It is also building this winter engines for several large steam mills. It employs from 30 to 40 mechanics and casts about 4 tons of iron per week. A boiler shop will be connected with it next season. Its business is largely on the increase.

The Improvement Company are also building a Steam Saw Mill near their office for the purpose of cutting timber for boats. A new church has recently been erected by the Congregationalists in Howard, and the Methodists will build the coming season.

Depere is 5 miles above the city, and is the head of navigation for Lake Boats on the Bay. It has one of the finest harbors on the whole chain of the Lakes, being a mile across with a depth of 15 feet of water. A toll bridge stretches across the river below the dam, which is 3000 feet long, and the water power is sufficient to carry 100 mills. Some idea of the business of the place may be formed when it is known that one Store, conducted by Mr. O. R. MERRILL, sells goods to the amount of $70,000 per year. About 150 million of Lumber and 25 million of Shingle will be made here this season.

There are in operation here, 1 Flouring Mill, (and two more to be built the coming season,) 4 Saw Mills, run by water; 1 Steam Mill; 2 Shingle Factories, run by water and 1 by steam; three more saw mills to be built this season. A very large wooden ware factory is nearly completed; a large dock and a commodious Grain Warehouse with steam elevator nearly completed. A machine shop will also be put up the coming season.

An inexhaustible bed of iron ore, equal to the Mayville iron, has been found about 4½ miles from Depere, and 5½ from the city, within 1½ miles of the navigable waters of Devil river.—The vein is about 5 feet thick, and miles in extent, neatly capped by rock about 18 inches in depth. It is owned by Messrs. T. O. Howe, D. M. Loy and Geo. H. Wood.

I saw several specimens of building and lithograph stone, in the office of Mr. Geo. H. Wood, of this city, taken from his valuable quarry down near Death's Door, Door county, which are the finest of any thing I ever saw in that line. The building stone is clear as crystal, and is susceptible of the finest polish. It may be obtained in any quantity of almost any color, such as drab, blue or grey, or finely tinted with spots of various hues, and is very convenient for shipping.—The citizens of Milwaukee would certainly find it for their interest to examine specimens from this quarry, when about to erect fine buildings along East Water street, or magnificent dwellings, for it will make a front as delicate as the finest marble.

The Lithograph stone has been examined by an accomplished artist in your city, and pronounced equal to the German article. Mr. Wood must realize a fortune from his quarry if properly worked, and brought before the public.

Great Anti-Nebraska German Meeting in Cincinnati.

A large and enthusiastic meeting of the Germans opposed to the extension of Slavery, was held last night, at Turner's Hall, which was densely crowded by earnest and intelligent Germans. The seats, the aisles, and galleries were filled, numbering a thousand men.

While the Committee withdrew, Councilman Hassaurek was called on, and addressed the meeting. He exposed the injustice and wrong of the Nebraska and Kansas bill. He showed the inconsistency of the Democratic construction of the doctrine of Popular Sovereignty. He denounced the union of the Pro-Slavery Democrats and Know-Nothings to extend Slavery, and urged Germans to range themselves on the side of freedom in the approaching Presidential contest. His remarks were listened to with great attention, and were interrupted with frequent bursts of applause.

Mr. Dietsch, associate editor of the *Volksblatt*, then read the following resolutions agreed upon by the Committee:

Whereas, The combination of the Democratic members of Congress, with the National or Southern Know Nothings of that body, at the election of Speaker, and other unmistakable signs, clearly manifest the tendency of accomplishing an affiliation of these parties for the ensuing Presidential election, and by the late messages and the proclamation of the President, is clearly established, that the Democratic party is degraded to a mere propaganda faction, for extending and nationalizing the evil of negro slavery.

Whereas, A Convention is called to be held at Pittsburgh on the 22nd of February, with the avowed object to set bounds to undue aggressions on liberty, and to restore our government to purity; therefore

Resolved—That we authorize Mr. Charles Reemelin, who is appointed as a Delegate to that Convention by the Republican Association of this city, to represent our political views at the said Convention, and that we hereby request him to participate in the same.

Resolved—That we hereby instruct the said Delegate to direct the attention of the Convention to the following questions, which we consider of paramount importance at the present crisis:

1. That we cherish the Union for one reason above all others, and this reason is the same as that stated to be its object in the U. S. Constitution, to wit: the perpetuation of liberty.

2. That our Government ought to be purged of its Pro-Slavery tendency and restored to its original scope, which was the exercise of the two powers, clearly given by the Constitution—and slave catching is not one of these.

* * * * * *

5. That, in republics to labor for freedom, should never be a crime. A President who cannot discriminate between efforts for liberty and those for slavery, and pronounces both equally criminal, evinces only his total incapacity to be the chief magistrate of a free people.

6. The time has come for the organization of a party truly democratic, which shall be the union of all patriotic citizens for the sake of liberty, and administrative reform.

7. That we hail, now, as we ever have, the vigorous existence of a healthy, liberal, and free American nationality, in which man, wherever born is welcome—a nationality whose aim is a higher and freer civilization than that of Europe; and that in such a nationality Know-Nothingism cannot have a place, either in fact or in name.

Charles Reemelin, Esq., then took the stand amid great applause.

He spoke against the Nebraska bill, the Miami Tribe and the pro-slavery tendencies of the Democratic party. He would go to the Pittsburgh Convention as an independent man, for the purpose of consultation, hoping that the Convention would take such ground that the liberal German Democrats could cordially co operate with it.—He was frequently applauded.

Census of Ozaukee County.

Messrs Editors:—I have expected that some one who has a genius for statistics, would make an abstract of the Census Returns for this County as compared with those of the General Census for 1850, for publication in the *Advertiser*. And more particularly in regard to the number of inhabitants in this Village, as compiled and published by J. W. Hunt, Esq. The figures show a gratifying increase of population in the county within five years. In 1850, Washington and Ozaukee Counties were one and indivisible. And a comparison will need to include the two counties as at present organized.

Ozaukee Co., 1855	12,973
Washington Co., 1855	18,877
	31,850
Washington in 1850	19,485
Increase	12,385

The Village Corporation of Port Washington or Ozaukee, includes only Fractional, Section 28, Town 11, Range 22, and the people residing therein were only enumerated by the Village Clerk as being within the village. They numbered 1,174, while residents on "Oatman's Plat" and numerous others in direct proximity to the corporation, were included in the enumeration of the Town Clerk, and not counted as within the village, in the return made to the Secretary of State. Their number cannot be less than 200. The population of Ozaukee is therefore, 1,374, instead of 1,174, as set down in the abstract by Mr. Hunt.

We would commend this state of facts, to the attention of Mr. Hunt, and Rufus King & Co., who advertise the publication of "Wisconsin annual Register," to include an abstract of the census of 1855. For a confirmation of the above we refer those gentlemen to D. G. Power, Esq., of Milwaukee. We hope our village will be awarded the credit to which it is fairly entitled.

FEB. 19th, 1856. V.

THE RUMORED SAFETY OF THE PACIFIC.—The office of Mr. E. K. Collins was thronged yesterday by parties interested in the safety of the missing steamship *Pacific*, attracted thither by the extract from the letter from Liverpool, stating that she had put into the River Shannon, published in our issue of yesterday morning. Mr. Collins, on Monday night, was disposed to believe in the truth of the statement. Yesterday, however, he had altered his opinion, and believes the whole to be a fabrication. If it is one, words are wanting to characterize the heartlessness of the fabricator. Mr. Collins we are glad to add, is fully persuaded that the *Pacific* is not lost. He believes that she has met with an accident which has compelled her to return to some European port.—*N. Y. Times*, Feb. 20.

AN IMPORTANT EVENT.—The last link in the iron chain which unites the shores of Winnebago Lake with those of the Atlantic Ocean is at length completed, and we are now in the enjoyment of an uninterrupted Railroad communication with the Eastern States. This auspicious event was consummated on Monday last, when a train of cars traversed the entire distance from Fond du Lac to Milwaukee. The beneficial effects of this connection upon the growth, prosperity and business interests of our city cannot be over-estimated, nor will they be fully realized until the tide of emigration, which invariably flows through these iron channels, shall have fairly set in upon us during the coming season.—*Fond du Lac Union.*

Letter from Hon. John Minor Botts, of Virginia.

Richmond, July 9th, 1855.

Messrs. WM. S. BEERS & Co.,

Gentlemen:—Considerations of duty to the afflicted alone prompt me to send you this voluntary testimonial to the great value of CARTER'S SPANISH MIXTURE, for that almost incurable disease, Scrofula.

Without being disposed, or deeming it necessary, to go into the particulars of the case, I can say that the astonishing results that have been produced by that medicine on a member of my own family, and under my own observation and superintendence, after the skill of the best physicians had been exhausted, and all the usual remedies had failed, fully justify me in recommending its use to all who may be suffering from that dreadful malady.

I do not mean to say that it is adapted to all constitutions, or that it will afford the same relief in all cases; for of course, I can know nothing about that—but from what I have seen of the effects, I would not hesitate to use it in any and every case of Scrofula, with persons for whom I felt an interest, or over whom I could exercise influence or control. Respectfully yours,

jan23 JNO. M. BOTTS.

☞ For the benefit of the invalid portion of the community, we extract the following from the Almanac of Dr C. M. Jackson, proprietor of *Hoofland's German Bitters* hoping it may induce a trial of them:

SPRINGFIELD, Ill., March 19, 1855.

J. C. NILES says:

"I expect to sell great quantities of your bitters this year Many of my customers speak very highly of its good qualities, having proved itself most an *excellent Fever and Ague preventative, a great purifier of the blood*, and the very best thing on record to aid digestion and create a good natural appetite. In short, I am sure it is one of the very best medicines known for family use, being safe and pleasant for any one to take."

O. L. D. CROCKWELL says.

ANAMOSA, Iowa, May 1, 1854.—"The Bitters give unbounded satisfaction to all that have used them, and I do and can always recommend them to all that are afflicted. They have cured many cases of Dyspepsia, some of them where hundreds of dollars have been spent for remedies which afforded no relief, and were considered incurable until they used the Bitters." Police Court, February 23.

A Son's Brutal Treatment of his Mother.—A man named John Ritchie, who had been arrested since last Wednesday for assault and battery, was brought down from jail by Policeman Kessler. This "villain, whom it were flattery to call a coward," was charged with a most brutal assault and battery upon his mother, an old, respectably dressed woman, whose eyes were both blacked, and who until this morning was unable to appear to prosecute, from the injuries inflicted upon her by the prisoner. The defendant, who was also marked up from blows, as the Police had to strike him to prevent an assault upon them, plead guilty to the charge. The old lady was then called to the stand, but was determined not to criminate her son if she could avoid it. In reply to questions put by the Court to ascertain the nature of the offence and the extent of injury inflicted, as well as to guide the Court in the sentence, the old woman stated that "he only pushed me agin the bedstead, he's guide enow when the drink's not in him, but when a man's i' a passion wi' too much drink in him, he does na' know wha he does. For God's sake let him go this time, and he'll do it na mair, he's my only support, and I'm an old woman above 70 years old, and may be you'll na believe that, but it's the truth; he's my own boy, and my only support, and if ye'll only let him go this time, he'll never do the likes agin."

The Court remarked that it was a shame—a burning shame, that an able bodied man and the son of the complainant should shamefully beat and maltreat his aged mother; and he must remark that it did not add to the credit of an old woman when under oath to endeavor to suppress the truth; he should refuse to inflict a fine, but would punish severely the inhuman conduct of the defendant, and send him to the County Jail for 80 days.—The old lady still kept pleading with the Justice to let her son off, but the magistrate was inexorable. In our own opinion, the additional exercise of a tread mill would be of particular benefit to Mr. Ritchie—it might reduce his physical powers sufficiently to prevent him from pounding his grey haired mother.

Meeting of the Board of Trade.—The Board of Trade held their annual meeting for the election of officers, at their rooms in Furlong's Block, Saturday afternoon. The President, Mr. H. Hill, having called the meeting to order, the committee appointed to canvass for subscribers reported that they had obtained 79 signatures, 42 being new members, and collected $295, there being $35 uncollected.

On motion, the report was accepted and the Committee discharged.

On motion, Messrs. J. G. Inbusch, D. Newhall, W. B. Alvord, E. H. Strong and M. B. Medbury were appointed a Committee to report officers for the ensuing year.

The Committee, after a brief absence submitted a list of names which were unanimously ratified by the meeting, as follows:

For President—W. J. Whaling.

Vice President—Lester Sexton.

Secretary—A. J. Aikens.

Treasurer—M. S. Scott.

Arbitrators—H. Hill, H. Fess, Jr., Jas. Saville, M. B. Medbury, Jas. Bonnell.

Directors—G. P. Hewitt, C. T. Bradley, W. B. Alvord, H. Bosworth, A. Mitchell, J. A. Dutcher, N. Webster, J. H. Comstock, E. P. Lemore, W. B. Hibbard, L. J. Higby, J. T. Bradford, W. P. Young, D. Newhall, Jno. Furlong.

The officers elect having accepted their several trusts and made their acknowledgments for the honor conferred, the Board adjourned to meet again at the call of the President. The meeting was largely attended and a good spirit manifested.

Bishop Clark's Lecture.—We were mortified on Friday evening that Bishop Clark should be greeted in Milwaukee with so small an audience. To be sure, the weather was unpleasant and the walking bad, but we had supposed that a man so distinguished for ability and attainments, and so widely known as a pleasing and accomplished speaker as Bishop Clark, would find more than 200 persons in Milwaukee sufficiently desirous of hearing him, to go to Young's Hall on Friday night. It hardly sounds well, that, while in Chicago he could find a hall crowded with over 1200 persons, here he should deliver his lecture to a scattered audience of about 200. Of the lecture itself we will only say that but very few lectures have been delivered in Milwaukee that afforded more entire and deeper satisfaction, or were more highly enjoyed by those who heard, than Bishop Clark's.

A Policeman in Trouble.—On Saturday afternoon Policeman Rice was sent for by a woman named Calahan, residing on Huron Street, to arrest her husband, who was beating her; the officer went and tried to reconcile the parties, but finding it impossible to make peace, attempted to arrest the husband, when the woman jumped behind the officer and held him while her husband kicked him several times. The officer at last freed himself and knocked down Calahan with his club, and calling for help, secured the man and took him to Jail.

Crazy Fit.—On Saturday, about noon, a German, who for some time had been confined to his bed with illness, ran down stairs from his room in Fishbeck's Boarding House, hallooing murder. He was secured, and after being taken up stairs, attempted to throw himself from the third story window, but was caught when half way out. He was then secured.

Circuit Court.—In the Circuit Court on Saturday, Bridget Kiley was tried for larceny and acquitted. Charles Gross was tried for stealing a shawl and convicted, sentence deferred. Sybil Spencer, indicted jointly with Sleeky John for keeping a house of ill fame, was admitted to bail in the sum of $500, and discharged from jail.

The Waupun Celebration.—In our account of the Ball Kurd Celebration at Waupun we inadvertently stated that Mr. Juneau presided. This was an error. The presiding officer was Mr. F. A. Sumner, Esq., an old and respected resident of Waupun, who did the honors with grace and propriety.

Fruit and Ornamental Trees.—We have barely space this morning to call attention to Mr. Cleveland's advertisement of Fruit and Ornamental Trees, from the well known Nurseries of Ellwanger & Barry, at Rochester, New York.

Female College.—On Saturday evening the Officers of this Institution were elected as follows: I. A. Lapham, President; O. H. Waldo, Vice do.; R. Menzies, Secretary; E. D. Holton, Treasurer.

The Concert To-Night.—Mr. Wm. Pay's Concert comes off to-night, at Young's Hall. His class is in excellent training, and under his able direction perform their pieces admirably. We bespeak for him a full house.

The Widow Bedott, or "The Last Leaf."
SLIGHTLY ALTERED FROM O. W. HOLMES.

I heard of her before
That she made each reader roar
With her fun;
That the laugh each page increased,
From the first until we ceased,
Having done.

They told me that the grin,
From the moment I'd begin,
Would be broader—
And that snicker, scream and laugh
With each added paragraph
Would be louder!

At last—I bought the book!
And a leisure hour I took
To peruse it;
My mouth expanded then,
Insomuch that ne'er again
Can I use it!

From ear to ear it spread,
Circling half around my head,
And my jaws
Are as open now as sin,
In that fixed eternal grin,
From this cause.

"I know it is a sin,"
For me to laugh and grin
At "the Deacon!"—
At his "rheumatiz an' pain,"
But no mortal could refrain,
As I reckon.

"Priscilla" bright and fair!
Queen of widows—may no tear
Dim your lot!
And may "Shadrack," called "the wise,"
Prove as precious in your eyes
As Bedott.

SANDS & CUMMINGS'
NEW & IMPROVED PATENT BRICK MACHINE
FOR TEMPERING THE CLAY, MOULDING AND PRESSING
Six Bricks in five Seconds
Completed at a Single Operation,
BY STEAM, HORSE, OR WATER POWER.

IN presenting this wonderful machine to the public, the patentees and proprietors wish to make no vain boast of its abilities, or assert in its behalf a single word which cannot be substantially and satisfactorily maintained, and they appeal to the practical brick makers of our country with confidence, when they add, that such a machine is positive and absolute demand. The business of brick-making is now engrossing great attention, and the rapid growth of our land seems to show that our present facilities will hardly meet a fraction of the demand for the useful articles which it is proposed to furnish by this new means of manufacture. In New England and the Great West, the supply has not been adequate these last ten years and the consequence has been the prices of bricks have been exorbitant, and that most especially during the very last year it has been almost an extortion.

Sands & Cummings' Brick Machine is built mostly of iron, is about four feet square, and five feet high in the rear.—When it is worked by horse-power, with four or five hands employed, (no more being required,) it turns out from fourteen to eighteen thousand bricks per day of ten hours. It is successfully operated by any ordinary laborers, who, by it, become fully competent to the most intelligent and experienced brick-makers.

CERTIFICATES.

WASHINGTON, December, 27, 1853.
DEAR SIR.—I have examined with much care and interest your Brick Moulder and Temperer, on Capitol Hill, in this city, and cheerfully bear testimony to its excellence. I consider its simplicity of construction, the rapidity of execution, and its durability, to be apparent to every observer, and I can say that the experience of twenty-five years in the manufacture of bricks, has given me good opportunities of judging closely in this matter. I think your machine is unrivalled as a Brick Machine in the United States. Respectfully, yours, S. HAYDEN
Practical Brick-Maker, at Palmyra, N. Y.
H. SANDS, Esq.

WASHINGTON AQUEDUCT OFFICE,
Washington, Nov. 23
SIR:—I was present, yesterday, at an exhibition of Sands & Cummings' Brick Machine. It appeared to me to be conveniently arranged, to be simple in its construction, not likely to get out of order, and it did its work quietly and effectually. I think it a very good machine.
M. C. MEIGS, Captain of Engineers,
In charge of Washington Aqueduct and Extension of U. States Capitol.
H. SANDS, Esq.

WASHINGTON, November 22, 1853.
SIR:—I this day had the pleasure of witnessing the operation of Messrs. Sands & Cummings machine for making brick, and must say that it performed much better than I expected. I can, therefore, recommend it to the public as a valuable labor-saving machine, as it tempers the clay and moulds the brick at the same time.
WM. P. ELLIOTT, Architect and Engineer.
To. H. SANDS, Esq.

WASHINGTON, November 23, 1853.
I have witnessed the operation of Messrs. Sands & Cummings' Patent Brick Machine, and consider it unequalled in simplicity, and in the perfection of its results, by any machine of any class that has come under my observation.
CHAS. EVERETT, late of the Patent Office.

WASHINGTON, D. C., November 25, 1853.
It is with much pleasure that I am prepared to say, that having witnessed the operation of making brick, by a new patented machine, by Sands & Cummings, it by far exceeds my expectations. It is very simple in its construction, and sure in its operation. From my experience as a practical machinist and model maker, (having constructed several models for that purpose,) I believe it to be far superior to anything I have ever seen. It can be worked with certainty and great facility, by the most ordinary laborer, while it tempers the clay and moulds the brick at the same time. I would especially recommend it to all persons engaged in the brick business.
J. D. WOODRUFF.

GEORGETOWN, D. C., November 25, 1853.
Having witnessed the exhibition of Sands & Cummings' Brick Machine, on Capitol Hill, last week, I hereby certify that its work was very satisfactory and simple, thereby allowing it to be used by hands totally unaccustomed to it. I was much pleased with the machine in every respect.
ROBERT P. DODGE.

WASHINGTON, D. C., November 23, 1853.
H. SANDS, Esq.—*Dear Sir:*—I have this day witnessed the operation of Sands & Cummings' Patent Brick Moulding Machine, and am fully satisfied that it is not equalled by any machine for speed, or in the correctness of its work; and can therefore cheerfully and confidently recommend it to any person wishing to purchase a perfect machine. Yours respectfully,
JOHN BREES.
Practical Brick-maker, Wyoming, Syracuse Co., Pa.

WASHINGTON, March 21, 1853.
GENTLEMEN:—I take pleasure in recommending to the public your Brick Machine. Having seen one in operation in Memphis, Tenn., I immediately purchased the right to use one in Phillips County, Arkansas, believing that better brick could be made by them than by the old process, and, at the same time saving the labor of at least one half of the number of hands required in the ordinary way of brick-making. Respectfully,
H. L. BISCOE.
Messrs. Sands & Cummings.

[Mr. B. first experimented with a dry clay brick machine, at a cost of several thousand dollars, which he set aside, and adopted in place thereof one of Sands & Cummings'.]

WASHINGTON, March 21, 1853
To the Managers of the Metropolitan Mechanics' Institute:
GENTLEMEN:—I am under the impression that the Committee on Class No. 6, in which the machine deposited by Sands & Cummings—a Brick-making machine was entered—recommended it as being the best machine offered, and therefore entitled to the highest award. As one of that Committee, I am of the opinion that it is the best machine now in use in this country for making bricks of *tempered* clay. I have seen the machine in use, of full size, and the *quantity* and quality of the bricks it produces are better than any others that have come to my knowledge. I am engaged in the brick business, and have searched much in all our principal cities for the most approved machines, and must say, that this machine is the very best I have seen or heard of; I, therefore, recommend the machine as worthy of the highest award that you can give to any machine at the Exhibition.
SAMUEL BYINGTON.

TROY, NEW YORK, September 15, 1853.
This certifies that I have been in the brick business, extensively, for seventeen years, and am employing twenty-two hands, and have this day witnessed the operation, in my yard, of Messrs. Sands & Cummings' Patent Machine. The Machine tempers the mud and makes brick at the same time. It is simple in its construction and not liable to get out of order, and can be worked with common borers, and makes good bricks, and is capable of moulding from 14,000 to 18,000 per day. I am well satisfied with the working of the machine. I have worked different kinds and take great pleasure in saying that this is the best I have ever seen, and in recommending the same to the public as being worthy their attention.
JOHN ARCHIBALD.

CAMBRIDGE, August 27, 1853.
This is to certify, that I have been engaged in making bricks about twenty years, and have seen and used different kinds of improved brick machines, and am now using them. I have this day witnessed the operation of Sands and Cummings' Patent Brick Machine, at Edmund Hayes' brick-yard, in Cambridge, Mass., and, in my opinion, it is most simple in its construction and, at the same time possesses every requisite for durability; to the extent, that no common laboring men can easily do all the work with the machine that is required of practical brick-makers. The machine tempers the clay by horse power, and, at the same time is capable of moulding 14,000 to 18,000 good bricks per day; and that it is best machine now in operation, and I take much pleasure in recommending it to all interested. GEO. W. WYATT.

CAMBRIDGE, August 27, 1853.
This is to certify that I have been in the brick business for thirteen years, and have seen the operation of Messrs. Sands & Cummings' Patent Brick Machine, in Mr. Edmund Hayes' yard, and, in my opinion, it is the best in use, and that it will make from 14,000 to 18,000 of good bricks per day, with horse power.
S. M. COFRAN, Putnam street.

BOSTON, March 22, 1855.
H. SANDS—*Dear Sir:*—This is to certify, that the Mechanics Brick Manufacturing Company have had in use in their yards during the past season some of your Patent Brick Machines, and the undersigned regard them the best machines for manufacturing brick that they have any knowledge of.

Terms, &c.

Machines will be furnished complete, (excepting only the sweep beam, which would of course be hardly worth the transportation,) with four setts of iron-bound moulds, for $300; and in ordering machines, parties should invariably send the dimensions of the bricks required to be made. *This should not be neglected.*

In sales of State, County or other rights, machines are sold at cost.

☞ The inventors have been asked often as to the size of yard, and position of kilns, and being anxious to impart every information to be derived from their practical knowledge, they respectfully submit the following:

For the most successful operation of one machine, the yard should be one hundred feet wide, and ninety feet in length, adding from eighty to a hundred feet in width for every additional machine, but never increasing the length of yard. The kiln grounds should extend from the back of the yard, so that the bricks being hacked, [illegible] to the kiln [illegible]. Bricks should be set [illegible] the kiln [illegible] made by this machine over dry much sooner than in the usual mode of manufacture.

SIX O'CLOCK REPORT.

REPUBLICAN CONVENTION AT PITTSBURGH.

Large Attendance—Harmonious Proceedings.

PITTSBURGH, Feb. 22.
The Republican Convention temporarily organized at 10 o'clock: a very large number being present, Mr. Brainerd, of Vermont, called the assembly to order, and moved the election of John A. King temporary chairman, and Dr. Stone of Mass. and W. Penn Clark, of Iowa, Secretaries.

Mr. King made a brief address, thanked the convention for the honor conferred on him. A committee on permanent organization, consisting of one from each State, was appointed.

During the absence of the committee several delegates were called upon to address the meeting. Horace Greeley, Giddings and several others addressed the meeting briefly.

A paper was submitted by Francis P. Blair, of Washington, containing the sentiments of southern friends. It warns southerners against endangering their property by taking it into the territories, considers that every issue should merge into the Missouri Compromise, and recommends all parties to meet in convention, and nominate candidates for President and Vice President.—The address was received as the sentiment of Southern friends, and ordered to be printed.

During the afternoon session the committee on organization, reported the following dispatch from Philadelphia:

"The American Party are no longer united. They raise the Republican banner. No further extension of slavery. The Americans are with you." Tremendous Applause.

Passmore Williamson, (Judge Kane's victim,) was called for, and was received with great applause, but excused himself from speaking.

AFTERNOON SESSION.—In consequence of the non-arrival of the cars containing delegates, Mr. Draper of New York moved to adjourn until the evening, and in the meantime to hold an informal meeting. Mr. Ripley of New York approved that motion, and Mr. Foote of Ohio opposed. The motion was lost.

On motion of Mr. Burroughs, of New York, the President was excused till 7 o'clock in the evening, in order that he might be present at the Committee meeting. Gov. Bingham, of Michigan took the Chair.

Mr. Sackett, of N. Y., called up the resolution to present a plan for national organization. The committee on a plan of organization then reported.

After some unimportant business relative to committees, a number of members were called on for speeches. Among them, Passmore Williamson, Chandler, Spaulding, A. Oakey Hall, Preston King, Giddings, and Julian addressed the convention; it then adjourned till 9 1-2 to-morrow.

PITTSBURGH, Feb. 23.
Convention assembled this A. M. President absent on committee, Mr. Sherman of N. J. in the chair. Ranney of Illinois, stated that the various committees were not ready yet to report, and moved the convention be addressed by one delegate from each State. Messrs. Stone of Mass., Brace of Vermont, Burroughs of New York, gave encouraging statements of the condition of the Republican party in their respective States.

Mr. Cloppane, of the District of Columbia, spoke commendingly of the efforts of the Washington Republican Association. Gov. Bingham read a long letter from Cassius M. Clay to the Washington association.

Dr. Gazzam, of Pittsburgh, spoke briefly of the progress of Anti-Slavery in this quarter; he invited the members of the convention to attend the Kansas aid meeting to-night.

Mr Julian of Indiana, Chairman of the Committee on Organization, made a report recommending the appointment of an Executive National Committee of one from each State, and that a National Convention be held at Harrisburgh on Tuesday, 7th of June next, with representatives from each State, double that in Congress, a delegation to nominate a Presidential candidate; recommends organization of Clubs in every township throughout the Union.

The report was accepted after several motions and a good deal of discussion on the subject of the place of holding the convention. Harrisburg was stricken out and Philadelphia substituted, the motion being carried almost unanimously.

Kansas Matters—Prospects Pacific.

Our Relations with England.

NEW YORK, Feb. 23.
The Richardsons' cordage manufacturers of this city, have suspended payment.—Liabilities about $200,000.

KANSAS MATTERS.—A Washington Correspondent of the Tribune telegraphs: Intelligence was received by the government this A. M., containing assurances that the border counties of Missouri would acquiesce in the present state of things in Kansas, and make no aggressive movements. The President's instructions to Gov. Shannon before leaving to visit these counties personally, say, if an invasion was attempted, it would be resisted by all the power he could command; also, to say to the people of Kansas that the same authority would be extended in any insurrectionary demonstration occurring. If the *Topeka* Convention assembles, a civil process will be served against the Governor and the officers, on the ground of the territory law, that they are assuming functions to which they have not been legally elected or appointed.

No military array will be empowered unless the civil process is resisted. Instructions have been sent by a special messenger, who started on Wednesday night, to members of the Topeka Convention, desiring them merely to organize and adjourn, so as to be prepared for other movements hereafter. With these precautions on both sides, no collision is now apprehended.

GREAT BRITAIN AND OUR COUNTRY.—No answer has been received by our Government concerning the request for the recall of Mr. Crampton. An interview has been held between Lord Clarendon and Mr. Buchanan, but the British minister indicated positive determination. It is quite probable Lord Clarendon assumed strong ground, and asserted strong opinions, such as the English press mistakenly connect with the Central American question. There is evidently a disposition to risk consequences, by compliance with the demands of the Administration, but this, or any such attempt, will not avail, if Lord C. should finally refuse to recede, passports will most assuredly be given to Mr. Crampton. There is no other recourse after what has occurred.—Still steps taken, will not involve any serious difficulties, though it may lead to a temporary suspension of diplomatic intercourse.

Lord Clarendon sent Mr. Marcy a dispatch directed to Mr. Crampton, who had never seen it before. It reached here yesterday morning, by special messenger in advance of the mail. The probability is that it may lead to further correspondence, and through this to amicable adjustment, as there is no ground for quarreling.

The K. N. Convention in a "Regular Row."

PHILADELPHIA, Feb. 23.
The K. N. Convention has been a scene of excitement during the entire A. M. session; thus far no progress has been made in business. The Southern delegates are very much dissatisfied and will hold a meeting in the parlor of the Girard House this afternoon, to determine upon some decisive course of action.

The N. Y. *Herald's* dispatches contain the [illegible] up to adjournment. The vote on the admission of the Platform (free soil) defeated [illegible] [illegible] vote for any person they nominate, and if a southern man, a slave holder stoops to accept a nomination they would ride him on a rail.

NEW YORK, Feb. 23.
FLOUR.—Less doing in flour, and market very heavy for common descriptions; demand chiefly for immediate wants of trade; sales 1,480 bbls at $6,75a6,87 inferior to common state, Ohio and Mich.; $7a7,37 for good Ohio and extra state; $7,37 a8,12 for fancy low grades extra western; $8,50a 10,50 extra Genessee; 1,800 bbls Canadian flour sold at $6,87a7,75; common superfine to extra at $9a9,75 choice extra. Latest from Kansas.

ST. LOUIS, Feb. 23.
A Lawrence, Kansas, correspondent of the Democrat under date of Feb. 14th says, Kickapoo rangers threaten hostilities again, saying that they will revenge Cooke's death by killing friends of the murdered Brown. Free state men are preparing for the conflict, but will act only on the defensive. Two mounted companies had left Lawrence for Easton under command of Col. Dickey and Major Grover. It is probable that a fight will occur.

Senator Wilson's Speech on Wilson Shannon.

Special Dispatch to the New-York Daily Times.

WASHINGTON, Tuesday, Feb. 19.
Senator Wilson's speech to-day on Wilson Shannon has excited intense rage and hatred among the Southern men, which broke out in Executive Session, where Shannon's nomination was discussed for two hours most acrimoniously.

Senator Douglass, instead of being friendly to the Free State sentiment in Kansas, as has been alleged, displayed the bitterest possible feeling and disposition to sustain the Border-Ruffian policy.

Senator Wade also made a rasping speech against Shannon and the Executive for attempting to suppress Freedom in Kansas.

Shannon was confirmed by 30 to 12.

Railroad Travel Eastward.

SPRINGFIELD, Tuesday, Feb. 19.
The storm of Saturday night, and the blow ever since have thrown the trains on all the roads in this vicinity into the utmost confusion. No storm during the winter has so paralyzed railroad travel.

The Sunday night mail train from New York encountered an immense snow-bank at Long Meadow, at 2 o'clock on Monday morning, and there remained until 4 o'clock in the afternoon, being joined, in the meantime, by the 8 o'clock morning train from Hartford, the 9 A. M. New Haven train, and at 4 P. M. by the New York morning express train. By this time help enough had been collected, so that, by the united efforts of nine locomotives and a large number of men, the trains were enabled to reach this city. The express train which left Boston yesterday morning arrived here at 9½ o'clock this morning, and started for New York at 10.

The New York afternoon Express train arrived here at 10 o'clock this morning, having remained at Long Meadow all night, and will start for Boston at 2 o'clock.

The morning train from Albany, due here at noon, yesterday, arrived at 1 o'clock this morning.

The northern roads, though suffering badly from the storm, are more favored than the eastern.

WEVER'S
DRY GOOD PALACE
AND
CARPET ROOMS!

Come to the Palace, oh come there with me,
Where Fashion, and splendor, still holds her levee
And smilingly tells you that Beauty is sold,
To youth, or to age, in exchange for their gold;
And their Lady-like charms through life may prolong,
In robes like a Queen's, which sell for a song.
They've shawls for the taste, and shawls for the storm,
They've cloaks which fall softly, so rich, and so warm,
They've carpets of Wilton, of Velvet, and Brussels
They've laces, and 'broideries, ribbons, and tassels,
They've sombre hued goods, for the weeping, and sad,
They've suits like the sunshine, for merry and glad,
They've fabrics for millions, and hold their levee,
For those who pay tribute, or come but to see,
If Palace of Dry Goods, so wonderous grand,
Can be aught but a fable, of old Fairyland;
But those who know WEVER, can't doubt for a minute
This glorious Palace, and all that is in it. C. H. G-

Now I blush, indeed I do, what modest married man would not? Yet I console myself with the idea that beauty always pays tribute to worth and merit. Thanking sincerely yet humbly my fair contributor, I trust that by honesty, uprightness and my gentlemanly bearing, I may ever command her respect.

FIRE INSURANCE COMPANY.
OFFICE IN MARTIN'S BLOCK, MILWAUKEE, WIS.
Capital over $165,000, in Cash & Premium Notes.

THIS COMPANY offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incompatible ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments, at a cost to the property insured, not exceeding two mills on the dollar.—Its business is principally confined to this State.

THE BEST FIRE-PROOF SAFE in the World, Depot No. 122 Water St., near Wall St., New York. The thousands of Certificates from Merchants, Bankers, and Mechanics of all trades, that have been given in favor of this, the only true "SALAMANDER," renders it useless for the subscribers to multiply words in its favor, as full twenty-five thousand of "WILDER'S PATENT SALAMANDER SAFES," have been manufactured and sold in the United States; and in almost every large fire that has taken place during the last ten years, these Safes have been subjected to the SEVEREST TESTS, and not one of the "Genuine Salamanders" has ever been destroyed.

They have added to their stock of Tools a large Planing or Shaping Machine, three Lathes, and a Machine for making bolts, and are now putting in a Steam Engine of — horse power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. In regard to the character of the work got up by this

The Oldest Establishment in the State,

the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man.
They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle.
They have always on hand a large stock of BRASS WORKS, such as GUAGE AND CYLINDER COCKS, OIL CUPS AND COCKS, and STEAM WHISTLES. Also TURTON'S FILES, which they will sell at the lowest cash price.
They are also Agents for EASTMAN'S PATENT STEAM GUAGES, which are well worth the attention of all those who use Steam Engines.
In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.
Their motto is, "*Excelsior.*"

IN ALL LARGE CITIES the PIANO and MELODEON trade is a department by itself, requiring the entire attention of the manufacturer or dealer. Believing that such an establishment can be sustained in this Musical City, the subscriber will devote his time to the trade in

Pianos and Melodeons exclusively.

During the past week he has received an additional supply to his before extensive stock and now offers a complete assortment of very superior 6, 6½, 6¾, 6⅞ and 7 octaves Pianos, in rich and beautiful cases, chaste but not gaudy, from manufacturers of established and unequalled reputation, viz:
LIGHTE, NEWTON & BRADBURY, New York.
JOHN B. DUNHAM, New York.
HALLET, DAVIS & Co., Boston.
MASON & HAMLIN'S MODEL MELODEONS.
The subscriber regulates and tunes his Pianos and Melodeons if necessary after they arrive in Milwaukee, himself personally, thereby insuring as perfect order and tune in the instrument as when it left the manufactory.

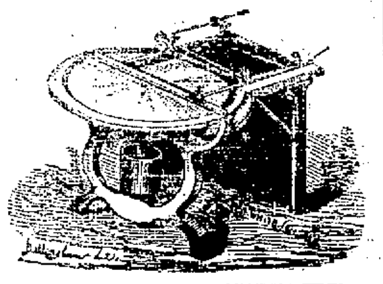
EVARTS'
PATENT SHINGLE MILL



EVARTS & BUTLER,
PROPRIETORS & MANUFACTURERS,
CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.
The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the shingle width-wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.
The shingles now made with this mill sell in this market seventy-five cents per thousand higher than any other sawed shingles.
This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

MEDICAL.

TO THE MILLION!
READ AND JUDGE FOR YOURSELVE

PROFESSOR WOOD'S Hair Restorative is no doubt the most wonderful discovery of this age of progress, for it will restore, permanently, grey hair to its original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all Scrofula and other cutaneous eruptions, such as scald head, &c. It will cure as if by magic, nervous or periodical headache, make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling to extreme old age. We could give the testimony of more than one hundred thousand to the truth of every word we have written. See circular and the following:

CARLYLE, Ill., June 29, 1855.

I have used Prof. Wood's Hair Restorative, and have admitted its wonderful effect. My hair was becoming, as I thought prematurely grey; but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

SIDNEY BREESE,
Ex-Senator United States.

VINCENNES, Ind., June 10, 1853.

Prof. O. J. Wood: Dear Sir—As you are about to manufacture extensively and vend your recently discovered Hair Restorative, I will state for whomsoever it may concern, that I have used it and known others to use it; that I have for several years been in the habit of using other hair restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head from dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance, and all this without discoloring the hands that apply it, or the dress on which it drops. I would therefore recommend its use to every one desirous of having a fine color and texture of hair.

Respectfully yours,
WILSON KING

A gentleman of Boston writes to his friends in New Bedford, thus:

To your inquiries I would reply that when I first commenced using Professor Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years and it was very thin on the top of my head, and very loose and pulled out freely; but I found that before I had used the second bottle up (which was eight weeks) my hair was entirely changed to its original color (light brown) and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change, and have never seen anything like white hair starting from the roots, and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish or ask.

July 1, 1854. Yours, &c., ———.

GARDNER, Me., June 22, 1855.

Mr. Dyer: Dear Sir—I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it, I was as grey as a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours, &c.,
DANIEL N. MURPHY.

ST. LOUIS, March 7, 1854.

Prof. Wood:—My hair commenced falling off some three or four years since, and continued to do so until I became quite bald. I tried all the popular medicines of the day, but to no effect. At last I was induced to try your celebrated Hair Restorative, and am happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afflicted.

A. C. WILLMANSON,
133 Second Street.

ST. LOUIS, June 23, 1852.

Prof. Wood:—As you are about to prepare and vend your recently discovered Hair Restorative, and as you request my opinion of it, I will state that my hair was, a few months ago, very grey; and after using two bottles of your Hair Restorative, it assumed its original color, and since its application all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied those who use it will not regret it, as it gives the appearance of having been recently oiled. I am prepared, therefore, to recommend it; use to all who are desirous of having a beautiful head of hair.

I am, sir, yours, &c.,
H. L. STEWART.

DR. WEAVER'S
CANKER & SALT RHEUM SYRUP & CERATE.

IT IS AN UNDISPUTABLE FACT THAT the above medicines are the only infallible remedies now before the public for cutaneous Eruptions, Salt Rheum, Erysipelas, Sore Legs, Ulcers, Old Fever Sores, Scald Head, Scorbutic Eruptions, &c., &c.
Cases that the most eminent Physicians have despaired of relieving, immediately yielded to their curative powers, and when used in accordance with the printed directions, which accompany each bottle, the Syrup and Cerate combined eradicates any of the above named diseases, and leaves the sufferer without a blemish. These medicines are too well known to require anything more than a plain statement of facts. The joyful intelligence is reaching us daily from East, West, North and South, of wonderful cures they are preforming.
See what is said by those who have used these medicines:
The Rev. Samuel Henry, of Palmer, Mass., says, "they have done me more good than all the other medicines I have used for Erysipelas."
Capt. William Vail, of the steamer Granite State, says: "they have cured my daughter of Salt Rheum and Scald Head of six years' standing. She was literally covered with sores; is now perfectly cured by the use of the Syrup and Cerate."
Dr. A. J. Johnson, of North Wardsboro, Vt., says, "a Scrofulous disease of the hip joint, and Scald Head in the same child, have been cured by the Syrup and Cerate."
Rev. August Bolles says "it has cured the Salt Rheum in my leg."
J. Hatfield Frazer, Esq., editor of the Somerset Whig, Somerville, N. J., says "my mother has been completely cured of a severe case of Tetter of long standing, that had defied the skill of the best Physicians."
Hon. Joel Loomis, of East Lyme, Conn., says, "I was completely cured of Erysipelas in my legs, after a council of the best Physicians in the County had pronounced the disease incurable; (at my age which was seventy-eight years, but Weaver's Syrup and Cerate did the work at once."
Elias Latham, Esq., of Orient, Long Island, N. Y., says, "I hardly know how to express my gratitude to you and your medicines. I have been afflicted for more than thirty years with Salt Rheum in its worst form. I tried several Physicians in New York, Brooklyn and Greenport. I have dieted and taken medicines enough to float a pretty large boat, but they did me no good. I have taken your medicines one year, and am now able to work and sleep without an ache or a pain, and my neighbors say I am the sprightliest man on the Island."
The Rev. J. S. Swan, of New London, says, I have used the Syrup and Cerate in my family for more than a year and I consider it completely adapted to sustain the high reputation that is claimed for it. I have seen it used in a number of cases for Salt Rheum and Erysipelas, with entire success.
Ask Seth Prisbery, of Taunton, Mass., what the medicines will do; ask William Barber, of Three Mile Bay, Jeff Co., N. Y., what the syrup has done for him; ask G. F. & W. H. Boynton, of Perkinsville, Vt.; ask F. L. Kent, of Chicago, Ill; ask Martha Cottle, of Martha's Vineyard, Mass; ask Wm F. Keables, or Wm F. Benjamin, Esq., of New London; ask Dr. H. M. Murdock, of Pulaski, N. Y.; ask J. C Smith, of Brooklyn N. Y., who was cured of Scrofula, after losing his leg by the disease, and suffering for years, has been perfectly cured by the use of the Syrup & Cerate; ask Curtis Burrough, of Shelby, N. Y., who has been cured of a severe case of Salt Rheum; ask Chas. Akin of Hume, N. Y., what the Syrup and Cerate will do for sore legs; ask Winslow and Slafter, Merchants, Virgil, N. Y. what it will do for Fever Sores. In a word, ask every body who has ever tried these wonderful medicines, and the answer will be the same—THEY CURE.
